### About us:

Intellicard, Inc. is the producer and publisher of pocket sized medical information. Symptom Management Algorithms: A Handbook for Palliative Care, first edition was produced in 1996 by the hospice team in rural Washington State in an effort to streamline effective pain relief and other distressing symptoms managed in the home care setting. It was one of the first models to include pharmacists with prescriptive authority, supported by Washington State Board of Pharmacy, in the realm of pharmacy integrated hospice and home care. This work is now in its fourth edition.
